

# *Passiflora* 'Marianna'

Registration Number: 242

Registration Date: 2016-12-02

Creator of seed, Grower of original plant: István Molnár

Parentage: *Passiflora* 'Inspiration' (2003 Register p18) x *Passiflora* 'Temptation' (2003 Register p33) (100%)

Flower

## GENERAL INFORMATION

How is it distinctive?

Why this name?

Has application been made for patent or PBR, or has the plant had another name?

Has it been published?

Cultivar was grown..

Where grown

Propagation information

Culture requirements

Leaves and stems look like those of the parents, but the flowers are distinctive. Named after a beautiful friend.

No

No

In a pot in an unheated greenhouse, also outdoors

Hungary, USDA Zone 7a

By cuttings. 7 clones exist currently of which 2 have been distributed to fellow *Passiflora* collectors.

Grown in full sunshine, some clones wintering inside a heated greenhouse and, as an experiment, others inside an unheated greenhouse - believed to be frost hardy to about -4 °C
